

The fastest way to get a signature.®

DocuSign has transformed the way we do business.

"Since implementing the service for sending out leases on reservations, we have cut the time from 2-3 days, to about 15-30 minutes! In addition, we estimate an approximate \$40,000 - \$50,000 savings in postage, paper, materials and time spent manually mailing or faxing leases."

R. Michael Harrington
Corporate General Manager, Resort Realty - Outer Banks, NC

DocuSign Professional Edition™

Electronic Signatures designed for individuals and small businesses

Individuals and small businesses need to cut costs and reduce inefficiencies to survive in today's economy. Business transactions are one area that your business can turn to meet these objectives. Business grinds to a slow and costly halt when the final stages of the transaction are impeded by traditional paper and mail processes to execute the signing of these valuable documents. Streamlining and reducing the expenses of this process requires getting the signature in a fast and cost effective manner. DocuSign is the leading Electronic Signature and Contract Execution solution that has helped thousands of companies from Comcast to Fidelity Investments slash expenses.

Transform your business processes

DocuSign Professional Edition enables businesses to:

- Eliminate 90% of the costs associated with transporting, sending, signing and managing paper contracts and agreements
- Accelerate your sales close rates by more than 200%
- Dramatically enhance customer satisfaction, security, and compliance.

Save money.

Every time a DocuSign user sends a document for signature they save money. In fact thousands of individuals and business are using DocuSign right now to cut their costs and shorten the time it takes to get documents signed. DocuSign makes it possible for anyone to complete transactions faster and cut unneeded costs with the leading Electronic Signature solution.

Delight customers.

Your customers will love DocuSign's convenience and ease of use. They can sign anywhere, anytime. All while you maintain control and visibility over the entire process. We have taken the hassle out of acquiring signatures.

No software to buy.

DocuSign Professional Edition enables any document to be sent for signature with just a web browser. DocuSign is provided as a service to empower individuals and small businesses to complete more transactions faster and easier with less costs.

More transformed businesses:

"When we started using DocuSign, great things started happening for our business...our contract return rate improved from 35-40 percent to 75-80 percent. It was like magic was injected into our sales force."

Paul Boyd, Executive Vice President
EFA Processing

"We processed 300 percent more loan applications than in the previous week and the DocuSign system never faltered."

Bruce Rashke,
Chief Administration and Loan Consolidation Officer
Great Lakes Educational Loan Services, Inc.

"Cool Vendors in Security and Privacy"

DocuSign has been recognized by Gartner's research team as a "cool vendor" because of its innovative electronic signature solution which enables users to do something they couldn't before sign and complete legally-binding contracts online. DocuSign also caught Gartner's interest because of the technology's ability to deliver significant business impact.

Two versions to meet your needs

DocuSign Professional Edition is designed to give you exactly what you need. Whether your needs are simple ease-of-use and reducing costs or streamlining business processes, a version of DocuSign Professional Edition is designed to achieve the end-goal.

DocuSign Professional Edition Standard

DocuSign Professional Edition Standard is designed for easy browser-based sending and signing. It reduces hard costs such as postage and paper. With no software to buy, you will be sending documents and receiving secure and legal signatures in minutes.

DocuSign Professional Edition Advanced

DocuSign Professional Edition Advanced is designed for process efficiency and powerful automation. "One click" document preparation with templates, Intelligent Document Recognition (IDR), and bulk sending to multiple recipients saves time and improves productivity. The entire signing process can be managed with sequential signing, document routing, and correction controls.
