DocuSign

Datasheet Insight Connector for SAP Ariba

Supercharge SAP Ariba with AI-Powered Contract Analytics

Over 61% of companies¹ have trouble finding and gleaning information from their agreements leading to unnecessary risk, revenue leakage and stalled business processes. Most contract systems cannot make contracts fully searchable, maintain metadata accuracy and surface the kinds of critical insights that purpose-built AI can deliver.

Understand what's in your SAP Ariba agreements

DocuSign Insight Connector for SAP Ariba allows users to connect data seamlessly from Ariba contract workspaces to Insight to make all contracts searchable, auto-populate metadata fields and analyse agreement content for better outcomes.

- Search all your agreements by legal concept, full text and metadata—instead of just keywords
- Compare AI-extracted clauses and terms across agreements
- Find answers faster with AI-powered analysis expressly designed for procurement
- Gain strategic insights with visualisation dashboards
- Filter, customise and share search results with other users or groups

70,000

agreements made searchable (global financial services company)

1 million

data points extracted (top 10 oil and gas company)

80%

faster time to answers (average SAP Ariba use experience with Insight)

\$50+ million

operational savings (Fortune 500 networking company)

"Insight helped us extract valuable information directly from 75,000 contracts and provide a consolidated repository."

Digital transformation and ML lead, global procurement Fortune 100 technology company

Manage your data synchronisation between Insight and SAP Ariba

The Insight Connector for SAP Ariba puts you in control of which Ariba instances send information to Insight and how that information is processed.

- Map specific Ariba data points to Insight labels
- Enforce information quality with an embedded data validation process
- Monitor data flow with interactive dashboards

Extract more data value with AI

Insight combines the text of a contract with metadata from SAP Ariba to form an analysis profile, enriched with information derived by Insight's Al capabilities.

- Select from our vast library of pre-built AI models or customise models to meet organisation-specific needs
- Answer specific questions automatically, such as: "Does this agreement have a force majeure clause that applies to pandemics?"
- Normalise extracted data points for more consistent searching and filtering, such as:

United Kingdom	→	United Kingdom
UK	→	United Kingdom
U.K.	→	United Kingdom
