

Create, Edit and Sign Digital Documents

As part of the DocuSign Agreement Cloud, DocuSign offers eSignature: the world's #1 way to sign electronically on practically any device, from almost anywhere, at any time. Integrated with Foxit Reader and Foxit PhantomPDF, DocuSign helps Foxit users more easily capture information and signatures on electronic forms. Prepare, sign and send within one environment without having to switch applications. DocuSign provides a streamlined process that will save you time and money. DocuSign adds to what users have come to appreciate about Foxit: extending Foxit's fast and lightweight functionality while still being feature-rich and secure.

Full integration increases efficiency and saves time

Streamline your form creation process with DocuSign. Using the fully integrated interface, users can sign and send directly with DocuSign from within Foxit, seamlessly connecting document creation with signature requests and information capture.

The process is simple:

- Create your PDF with Foxit
- Login to DocuSign through Foxit's PROTECT tab
- Drag and drop signing tags and electronic fields without switching services
- Send to your desired signer's email address right from within Foxit
- Get a signature in minutes, not days or weeks

Need to sign a school permission slip or send a rental form for signature? Foxit's PDF creation lets you create, edit, and customize your form to fit your needs. Sign into DocuSign from within Foxit and use DocuSign's drag and drop fields to populate your form with everything you need. Send it off to your recipient and get it back in minutes.
