The global pandemic saw HR and recruiting teams forced to transition entire workforces to remote work and adapt to new hiring and onboarding practices. But the truth is, there will always be forces shifting the workforce and economy, whether it’s a pandemic, tumultuous political events or something else, and HR must stay ahead of these changes. No easy task given the complexity and in-person nature of the typical hiring and onboarding process. With the DocuSign Agreement Cloud, HR teams can create a digital hiring and onboarding process that increases efficiencies, modernizes the overall experience and improves accuracy—allowing them to stay ahead of competition and hire top talent.

Support a global, mobile workforce
Supporting a global, mobile workforce makes good business sense. Some portion of your workforce will always want to work remotely. Then there’s the cost savings: work-from-home initiatives are expected to save U.S. employers $30B per day.\(^1\) Equally important, automating the hiring and onboarding processes lightens your talent and recruitment team’s load, making them more efficient and agile.

Modernize your employee and candidate experience
Only 12% of employees strongly agree\(^2\) that their organization does a great job onboarding new employees. Onboarding a new employee is also labor intensive, accounting for 95% of the cost. So, creating a modern signing experience that reaches employees and candidates where they are increases satisfaction while lowering costs.

Ensure complete accuracy and simplify compliance
In today’s increasingly regulated business environment, it’s critical for HR to demonstrate compliance with new hire identification checks, security checkoffs, audits and other key activities. And when it comes to non-regulated procedures, mistakes in paperwork can be costly. Consistent templates and automated processes reduce errors, ensure employees complete required actions and sign necessary forms, and help maintain compliance.

Improve operational efficiencies
Traditionally, new hire onboarding is a very manual, paper-intensive process that involves multiple stakeholders. If you consider that 62% of HR departments process 500+ agreements every month and that processing those agreements can take over 25% of an HR professional’s time,\(^3\) there’s an incredible time-savings opportunity with a fully automated system. That’s even more true if that system connects to your existing HCM, ERP and ATS platforms.
